

EDUCATIONAL PROGRAM POLICY

Research accentuates that high quality educational programs significantly influence children’s development in all areas. We have the opportunity to provide a supportive learning environment and program, gaining inspiration from the children and families. Thoughtfully planned experiences and environments encourage the children to feel a sense of control over their actions, be curious and investigate, and explore their understanding of themselves, others, and the world around them. The United Nations Convention on the Rights of the Child (the convention) (United Nations 1989) states *‘that all children have the right to an education that lays a foundation for the rest of their lives, maximises their ability, and respects their family, cultural and other identities and languages.’* (EYLF, V2.2, 2022, p.5).
